MUNICIPAL REGULATIONS

For Payment of Bills Against the City

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government. The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY,

City Clerk.

INAUGURAL ADDRESS

On the incoming of a new administration it is the custom for the new Mayor to give an address; and while I am not averse to writing or proclaiming, I am of the opinion than an inaugural is of but little value, few read, a lesser number hear and no one pays attention or takes seriously whatever may be uttered or written.

To repeat what I said two years ago at this time respecting the honor of the office and my gratification at the trustful partiality of my fellow citizens is truly appropriate on this occasion and in fact I believe my entire pronouncement of that date is worthy of your review and consideration.

As a rule to determine at the beginning, a certain line of action, is a dangerous procedure; what may seem of best interest today, tomorrow may appear an unintelligent course of conduct. For example I find in an inaugural of a former Mayor, and a highly respected one too, a recommendation to build a city horse stable for the police and fire department.

I am firmly persuaded however that our policy should be a determination to serve the city faithfully and with an unshaken adherence to fidelity and honesty.

I have heard criticicisms concerning this or that department; all mayors have heard them and some candidates for office use this as their campaign slogan, but after two years in City Hall I am firmly of the conviction that we have no municipal leaks, as they are called, and that every dollar that is appropriated for the departments is honestly spent.

I may be excused for not going into detail of all of our manifold activities.

The Police and Fire Departments, the Cemeteries, Park and Playground, Recreation, Public Library, Board of Health, Engineering and Highways, Bridges, Sewers,

Trees, City Water Works and Schools all of these are shown in our annual City Report as well as our indebtedness and miscellaneous budget outlays, Hospitals, Band Concerts, Memorial Day, Armistice Day, Fourth of July, etc.

This brings us to the question of Taxes and Tax Rate. Concord is operated on a budget system and you will find that aside from Relief there is but little difference in the past several years in departmental expenses.

The larger part of our tax rate is governed by conditions over which this Board has no control. The State, County and School Tax together with Relief making up the greater part.

No municipal subject is surrounded with more perplexities and real difficulties than relief. Our City's Valuation is upwards of 50 million and the non taxable property is over 20 million or 40% of the whole; in other words 3/5 of the valued property has to pay 5/5 of the tax.

I know of no reason why that part of the tax rate over which this body has control, should be materially increased. I do have fear that acts or other agencies, instrumentalities or powers, may tend to move the taxes upwards.

It is easy to talk about economy in our affairs, yet that means few or no improvements or betterments; curtailment of our appropriations for maintenance and necessities. I am sure you will recognize this; notwithstanding we are pledged to do the best we can after taking all things into consideration, bearing in mind what Concord is, what Concord stands for, and what Concord demands and expects.

It may be opportune to quote from the 1903 inaugural address of the late Mayor Charles R. Corning, he says in part,

"Wiser than Solomon by an arrow's flight, would that

man be who should devise the means whereby a modern city would be conducted without appreciable expense to its inhabitants. While waiting, therefore, the advent of such a creation, we must go on assessing taxes and expecting good citizens to pay them".

Edgar H. Woodman, a former mayor of this city, and who to my mind, was one of the finest and purest examples of good citizenship that I have ever known, said this in his inaugural address: "Taxation, like any other burden, does not bear so heavily upon us if we bear it willingly. It is usually the case that the complaints against taxation, where the levy is a matter of necessity, come largely from those who pay scarcely any taxes, or who do not pay their full and fair share. If we are to have the benefits of improvements, we must remember that we shall have to pay for them". I repeat what Mayor Woodman said, not because I seek to change the perennial complaint respecting high taxes but merely to show the deep-seated and continuous nature of the disease. We surely have a permanency of buildings, of parks, of bridges, of roads to show for our expenditures, and moreover, we have practically paid for them by means of annual taxation. But there is a unique feature in the condition of Concord as respects taxation that is often overlooked. I doubt if its like is to be found anywhere in the country; certainly not in a city the size of Concord. I am forced, however, to use rather common words to express an impressive fact when I say that the unique condition consists in Concord's being a show town. Where, I ask, is there a similar city of twenty thousand inhabitants that offers more of pleasure and interest than Concord offers? It is not necessary for me to point out the state and federal buildings, the parks, the libraries, St. Paul's School, the statues and memorials, and our public schools. Stand in front of the state house and look upon the property belonging to the nation, the state, and the city, not to enumerate the churches, and reflect that

out of all that aggregation of wealth not a penny issues for the purposes of local taxation. No person, I hope, would care to blot out all that splendor in order that his taxes might be lightened a few dollars. But all the wealth, together with the state hospital and the prison, although exempt from taxation, contributes in many ways to the direct benefit of the city and its inhabitants. So then, when you try to compare the tax rate of Concord with the rates of other cities, see to it that you keep in mind this imposing mass of untaxable wealth to which I have referred, and then, I am sure, you will find that the people of Concord receive a great deal for their money.

To Mayor Corning's list of untaxable property might be added our two hospitals, Pleasant View, the Christian Science Home, The Friendly Club, Woman's Club, Camp Spaulding, The Young Men's Christian Association, Home for the Aged, I. O. O. F. Home, the Historical Societies' Buildings and probably others.

It will be my purpose to keep in touch with our city's activities and necessities and I will from time to time as occasion demands call to your attention observed requirements for your consideration, mature thought and action. With desire, courage, cooperation and determination for our people's well being, we cannot but attain achievements credible to ourselves and of beneficial import to our city.

MAYORS OF THE CITY OF CONCORD

The original charter of the city was adopted by the inhabitants March 10, 1853, and until 1880 the Mayor has been elected for two years, at each biennial election in November. Under the City Charter, adopted May 11, 1909, the Mayor was elected, in December, 1910, for one year, and biennially thereafter in November beginning in the year 1911.

REPORT OF THE BOARD OF WATER COMMISSIONERS

To the Honorable Mayor and Board of Aldermen:

The principal work of the Department for the year 1936 has been the satisfactory completion of the contracts for the extra high service system and the elevated water tower in Penacook.

This work has been carried on in conjunction with the Public Works Administration. Contracts were let to L. H. Shattuck Inc., of Manchester for building the foundations for the 250,000 gallon standpipe on the Little Pond Road and for the 250,000 gallon elevated water tower in Penacook and for the construction of the pumping station on Columbus Avenue; to Chicago Bridge and Iron Works for the standpipe and for the elevated water tower; and to F. A. Mazzur Co., Inc. for the equipment in the pumping station which is operated automatically; the pipe laying was done by force account.

Metcalf and Eddy were the engineers for the project and were very thorough in their plans, inspection and tests.

The automatic pumping equipment works out as planned; the pumps starting when the water is down in the standpipe six or seven feet and stopping when the water level is within 18″ from top of tank.

This extra high service system provides forty pounds additional water pressure for this district.

In the 1935 session of our State Legislature an amendment was made to Chapter 153 of the Statute Laws which placed municipal water utilities under authority of Public Service Commission as to uniform accounting and requiring reports to that Commission as prescribed.

We were notified of this law by the Public Service Commission in November 1935 and after two hearings

with water works officials, the Commission issued an order dated February 17, 1936, requiring keeping of accounts and filing reports in accordance with regulations accompanying and made a part of the order, effective as of January 1, 1936.

This necessitated a new accounting system in our office and in the set up, required a valuation of the plant.

We employed Archie M. Peisch & Company to install the system and make such valuation. This was established by historic cost with depreciation reserve; while it was not possible to get complete information in regard to all separate items of plant cost during the early years of the Water Works, the accountants made very careful study of our records and we feel that their report represented a fair and accurate valuation, while the depreciation percentages were those recommended by American Water Works Association and considered as standard by water works authorities.

Mr. Sanders shows in his report the balance sheet as of January 1, 1937, as set up by the Certified Accountants.

Respectfully submitted,

For the Board of Water Commissioners duly authorized,

HARRY H. DUDLEY,
President.

IN MEMORIAM

Frank P. Quimby

It is with a deep sense of loss and regret that the Board of Water Commissioners records the death of Frank P. Quimby on August 22, 1936. Mr. Quimby was appointed to the Board by Mayor Charles French in 1911 and served on the Board continuously for twenty-five years. He brought to the Board during his years of service sound judgment, wise counsel and keen interest in the affairs of the Concord Water Works.

During his years of service important changes took place, consisting of the additional water supply of the driven wells and pumping station at North Pembroke; the extension of the water service to East Concord and Concord Heights; additional high service to Penacook and the west portion of the city known as the West End. In all these important additions and extensions, Frank Quimby took a keen interest and an active part. In his passing the City of Concord has lost a valued citizen.

EXTENSION AND IMPROVEMENTS

Distribution pipe laid:

8-inch:

Minot Street, 332 feet extended north from Woodman Street.

6-inch:

Borough Road, Penacook, 1,432 feet, from West Main Street to Fowler Street, 533 feet of 1¼-inch pipe discontinued.

Joffre Street, 708 feet, west from South Main Street to Donovan Street.

Davis Street, 578 feet, west from Donovan Street to Broadway.

Princeton Street Extension, 242 feet, south from Noyes Street and thence 423 feet west.

Little Pond Road, 258 feet, extended from end of pipe laid under PWA project.

2-inch:

South Pembroke Road, 168 feet, extended south.

Ormond Street, 85 feet, extended north.

Kearsarge Street, East Concord, 137 feet, extended.

1½-inch:

Franklin Terrace, 272 feet, north from Franklin Street.

Prescott Street, 86 feet, extended west.

1-inch:

Huntington Street, 203 feet, north from Warren Street.

Penacook Street, 47 feet, extended east.

On hydrant branches: 49 feet of 6-inch.

On connections and repairs: 36 feet of 18-inch; 9 feet of 10-inch; 3 feet of 8-inch.

Distribution pipe discontinued:

On connections and repairs: 48 feet of 18-inch cement-lined; 56 feet of 6-inch.

Auburn Street, 855 feet of 6-inch replaced by main laid under PWA project.

Borough Road, 533 feet of 1¼-inch.

Relaid: Durgin Street, south from 6-inch pipe, 44 feet of 1-inch pipe; 40 feet discontinued.

Fourteen new gates were set, one 8-inch and thirteen 6-inch.

Five additional hydrants were set:

Joffre Street, north side, between South Main and Donovan Street.

Davis Street, north side, between Donovan Street and Broadway.

Princeton Street Extension, north side, opposite Chandler's house.

Borough Road, north side, opposite Jemery's.

Borough Road, north side, opposite #80.

Six hydrants have been replaced by new ones.

Forty-six new services have been laid, consisting of 14 feet of 1½-inch; 85 feet of 1-inch and 966 feet of ¾-inch pipe; of these 11 were relocations of old services and 2 were for consumers formerly supplied from pipe with another consumer. We have also added one 6-inch sprinkler service for the Margaret Pillsbury General Hospital.

Sixteen services were discontinued in addition to seven relocations; total length of service pipe laid 1,065 feet; total length discontinued 404 feet; net increase of 24 services and 661 feet of pipe. Four consumers were added for service from supplies already laid, net gain of consumers 22.

Forty services were relaid and curb valves were placed on 9 old services.

Sixty new meters were set; 13 have been discontinued.

It has not been necessary to use the emergency plant at Pembroke this year as the supply from Penacook Lake has been ample. Water was wasted over the spillway for 36 days. During the March flood the water was one foot over the spillway.

We were obliged to run the steam pumps fourteen days in March at the height of the flood on account of loss of electric power. These pumps have been kept in reserve since the change in method of pumping from steam to electricity in 1918 and while they have been used but very little since that time they were put into operation when the need came and gave as good service as when closed down eighteen years ago.

During the summer the two boilers were retubed and the pumps were repacked and valves changed on the water ends. The steam plant is now in first class condition and ready for any demands that may be placed upon it.

The damage caused by the flood was confined mainly to river and bridge crossings. There were two washouts on the 18″ main line from the lake to the city necessitating the replacing of 35 feet in one section on North State Street near Palm Street and 12 feet in another on North State Street near the cemetery entrance.

A 6-inch main in Penacook laid through outlet of Contoocook River was completely washed out and the district supplied by this main had to rely on a 2-inch line laid on the surface of the ground until it was possible to relay the 6-inch line. Another line, size 8-inch, on Merrimack Street, Penacook, was uncovered for a distance of 500 feet but held intact.

The 10-inch connection across the Contoocook River to the Boscawen Water Works was also washed out during the flood. At the time Boscawen was being supplied with Concord water but when this line went out, the drop in pressure was so great that none of the residents of Penacook were able to get any water until the line was shut off on the Concord side of the river.

The boxing around the 12-inch pipe on the Bridge Street Merrimack River crossing was badly damaged by floating logs and other debris and considerable ground

cork was washed out but the pipe was not harmed. While the water came up part way on the boxing on the 8-inch pipe on the Federal Bridge over the Merrimack at East Concord, it was well protected and no damage resulted.

The five-foot stack on the 100,000-gallon elevated water tower at East Concord has been frozen clear through during several of the coldest winters. This season a 10-inch pipe has been built inside the stack and the space between the stack and the pipe has been filled with coarse granulated cork. It is hoped that this will prevent any recurrence of this trouble. The same procedure was followed at Penacook on the 250,000 gallon elevated tank.

The improvements to the plant as outlined in the 1935 report have been completed. The 250,000 gallon elevated water tower in Penacook was finished July 23 and placed in service. The extra high service system was placed in use November 27, 1936.

The part of the city supplied extends on Liberty Street and Auburn Street north from School Street and west of Liberty and School to Grand View Avenue, Kensington Road, Minot Street, Fruit to Woodman, Giles to Warren, Ridge Road and Westbourne Road. Added fire protection and service has been given to approximately 170 residences, Odd Fellows Home and Dewey School.

Construction work in detail was as follows:

Distribution pipes:

12-inch:

Auburn Street, from north line of Centre Street to junction of Auburn and Penacook Streets, 4,560 feet.

Little Pond Road from junction of Auburn and Penacook Streets to standpipe supply line, 876 feet.

At Standpipe, from 12-inch tee on Little Pond Road to 12-inch sleeve in pit at base of standpipe, 109 feet.

Liberty Street, from south line of School Street to north line of Centre Street, 369 feet.

South Main Street, Penacook, from 14-inch main to 12-inch sleeve at base of elevated tank, 388 feet.

8-inch:

Columbus Avenue, suction line from 14-inch main to foundation wall, 38 feet.

Columbus Avenue, discharge line from foundation wall to Auburn Street main, 375 feet.

Forest Street from Auburn Street to Ridge Road, 313 feet.

6-inch:

Little Pond Road, from standpipe supply line to hydrant at Lord's, 270 feet.

At Standpipe, drain from pit at base of standpipe to road, 197 feet.

On hydrant branches: 124 feet of 6-inch; on connections, 23 feet of 10-inch, 26 feet of 8-inch, 132 feet of 6-inch.

Thirteen new hydrants were set:

Liberty Street, southwest corner of School Street.
Liberty Street, southwest corner of Centre Street.
Forest Street, southwest corner of Auburn Street.
Auburn Street, west side, near #13.
Auburn Street, west side, near #31.
Auburn Street, southwest corner of Franklin Street.
Auburn Street, east side, at #54.
Auburn Street, east side, at Bruno's.
Auburn Street, east side, at Sansousso's.
Auburn Street, east side, at Dunstane's.
Little Pond Road, north side, at Rollins'.
Little Pond Road, north side, at Lord's.
In grounds at Penacook elevated tank.

Thirty-two new gates were set, seven 12-inch; one 10-inch; five 8-inch; nineteen 6-inch.

As final payments to contractors could not be made until ninety days from completion of contracts, the financial statement is still incomplete.

FIRE DEPARTMENT

To the Board of Mayor and Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1936.

The Department responded to 563 alarms.

Bells	*Stills*	*Alarms*
71	492	563

The number of alarms exceeded those of the previous year by eight, but there was a gratifying decrease in property loss.

The apparatus is in good condition. Engine 8 was rebuilt and equipped with a modern pump and booster tank. Engine 5, the same type of truck, will be rebuilt this coming year, and with the completion of this project, all apparatus will be modernized.

All repairs and maintenance are done in the Department shop by the regular force, which means a great saving to the tax payers.

Again I urgently recommend the purchase of an aerial ladder truck, as our ladder equipment is inadequate.

The Fire Alarm system is in good condition. One mile of aerial cable was installed in the Penacook district, and a like amount to be done this coming year, the system, which was installed in 1905, will be completely rebuilt.

A yearly test was made on all hose, and a small amount was rejected. One thousand feet of hose should be purchased for the coming year.

Fire prevention work was carried on by the regular force, and there were two thousand seven hundred and

ninety-seven inspections made. Results of this work have proven highly satisfactory.

I wish to thank the citizens for co-operating with the fire inspectors.

For the support and co-operation of your board, and the heads of departments, I wish to express my appreciation.

Respectfully submitted,

W. T. HAPPNY,

Chief of Department.

REPORT OF ENGINEERING DEPARTMENT

Concord, N. H., December 31, 1936.

To the Board of Public Works:

GENTLEMEN: The following is the yearly report of the various subdivisions of this department.

ENGINEERING

Appropriation	$5,275.00	
Receipts	627.50	
		$5,902.50
Expended		5,902.11
Balance		$0.39

An itemized account of all work done and expenditures is kept on a card system, which we shall be pleased to show and explain to all interested parties.

Fifty-three plans and 1,278 blue prints were made. 8,271 feet of sidewalk grade stakes and 1,078 feet of road stakes were set. 577 transfers of property were recorded. 0.110 miles of streets were laid out as follows: Princeton Street Extension 450.40 feet; widening of Warren Street 129.66 feet, bringing the total mileage of roads and streets in the corporate limits to 183.452 miles.

The deed book of Blossom Hill Cemetery showing transfers of lots was brought up to January 1, 1937.

This year has been an unusual one for this department due to the flood in March which resulted in much work for this department repairing roads and bridges.

Fred W. Lang, who from April 1922 to December 31, 1930, served as City Engineer, and from January 1, 1931 to October 1, 1936, as Commissioner of Public Works, resigned to accept a more attractive position.

Sewers

Appropriation,	$10,000.00	
Receipts,	3,234.18	
		$13,234.18
Expended,		13,228.96
Balance,		$5.22

W. P. A. Sewer Projects

City Proper

Joffre Street	1400 feet of 12″ Akron

Penacook

Elm Street	1397 feet of 10″ Akron
	924 ″ ″ 15″ ″
Cross Street	830 feet of 8″ Akron

West Concord

Clark's Field Outlet relaid 896 feet of 20″ Akron pipe with 24″ Cement.

Sewers Built by Regular Force

Redwood Avenue	92 ″ ″ 8″ ″
Downing Street Relay	286 ″ ″ 12″ ″

Plains

Prescott Street	112 feet of 8″ Akron

The department maintains 66.824 miles of main sewers located as follows:

City Proper	46.144 miles
West Concord	3.972 ″

East Concord	1.455	"
Penacook	6.581	"
Plains	3.454	"
St. Paul's School	1.197	"
Concord Manor	5.002	"
Total	56.624	miles

Twenty-four catch basins were built and connected. 11 manholes were built.

There were 51 private pipe plugs and 13 main line sewer plugs which were immediately removed.

There were 109 house connections laid and relaid. 19 old house connections of which we had no record were found.

A detailed account of every job, bill etc., is kept in this office.

Plumbing Inspections

There were 136 plumbing permits issued and 176 inspections were made during the year.

Street Lights

During the year one 60 c.p. lamp was installed. On October 9, 1936 a new contract was executed with the Concord Electric Company and all 600 c.p. lamps were replaced with 400 c.p., and 40 c.p. lamps were replaced with 60 c.p. The total number of electric street lamps December 31, 1936 is as follows: 145, 400 c.p., 315, 250 c.p.; 1, 100 c.p. and 1161, 60 c.p.

Appropriation	$41,000.00
Expended	37,027.00
Balance	$4,973.00

Trees

Appropriation	$6,000.00
Receipts	3.63
	$6,003.63
Expended	5,838.77
Balance	$164.86

On October 15, 1936, Mr. Carl Sargent was appointed Tree Warden, and henceforth all work on trees will be under his supervision. Mr. Sargent has made a survey of the trees and he found them to be in very poor condition. This condition is largely due to the fact that appropriations for tree work have been very small. Mr. Sargent feels that much more money will have to be appropriated to save the trees in the city of Concord.

Garbage Other Than Table Garbage

Appropriation	$35,000.00
Receipts	7.78
	$35,007.78
Expended	34,675.22
Balance	$332.56

Table Garbage

Appropriation	$4,610.00
Expended	4,610.00

Table garbage is collected by contract. Bert Holt has the contract for collecting in the city proper. Fred Loranger has been collecting in Penacook and West Concord.

Bridges and Culverts

New footings were put on the abutments of Twin

Bridge, Penacook. A new footing was put on south abutment of Main Street Bridge, Penacook. Filled approaches to Washington Street Bridge, Penacook and installed one abutment. Put new footing on north abutment to Island Bridge, Penacook and pointed up south abutment. Removed old abutment of old Soucook Bridge from River.

Rebuilt culvert on No. State Street at the intersection of Rumford Street. Built culverts on the Bog Road, Mountain Road and West Parish Road.

Fences

Guard rails were repaired and new ones installed as time would permit.

Snow Plowing and Snow Removal

In January 27 inches of snow fell which required 11 plowings. We hired 21 plows in addition to our five and 40 extra men. Sidewalks were plowed 9 times.

In February 17 inches of snow fell which required 15 plowings. We hired 22 plows in addition to our five and 31 extra men. Sidewalks were plowed 8 times.

No plowing was done in March or November. In December 4 inches of snow fell which required two plowings. We hired 17 trucks in addition to our four. Sidewalks were plowed once.

In January five trucks were hired for snow removal, and in February 11 trucks were hired for this purpose.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To His Honor the Mayor and the Board of Aldermen:

During the period January 1, 1936 to January 1, 1937 your sealer carried on the routine work connected with his office and responded to requests of citizens for special services such as measuring piles of wood, testing family scales, etc. In addition there was much extra work occasioned by the spring floods for many of the scales were entirely put out of commission. This was especially true of those located at coal establishments where sections of certain scales were swept several miles away.

There were 1,021 scales tested with the following result: 648 were found correct and were sealed, 336 were found incorrect and were adjusted before being sealed, 14 were beyond repair and were confiscated, and 23 were condemned for repairs and later reinspected and sealed. Of the 1,376 weights tested, 1,361 were found correct and were sealed, 3 were adjusted before being sealed, and 12 were confiscated.

There were tested 34,795 liquid measures, which included bottles used in the sale of milk and cream, all of which were correct with the exception of 5 which were adjusted before being sealed, and 20 were confiscated. Although not prohibited by law, dry measures are seldom used at the present time, and your sealer found but 7 in existence, all of which were correct and were sealed.

Three hundred and forty (340) tests were made of automatic pumps, 267 of which indicated that the devices were working accurately, while 62 were adjusted before being sealed, and 11 were condemned for repairs and later, when the necessary corrections had been made, were reinspected and sealed. There were 1,768 oil meas-

uring devices tested which were found correct and sealed with the exception of 9 which were adjusted before being sealed. Nineteen (19) pumps used for dispensing grease by the "job" were tested and found correct.

The usual close inspection of commodities in package form was made during the past year with the following result: 4,037 were found to contain the correct amount, 63 were found over and 172 under weight. There were 8 reweighings made of coal in the process of delivery, 5 of which were found correct, 2 over and 1 under weight. Fifty-two (52) cart bodies used in the delivery of wood were measured, 46 of which were found to comply with the law and 6 otherwise, which were later corrected and again inspected.

Respectfully submitted,

GEORGE A. DEARBORN,
Sealer of Weights and Measures.

HEALTH DEPARTMENT

Report of the Sanitary Officer

To the Honorable Mayor, the Board of Health and the Board of Aldermen:

I have the honor to submit the following report on the health of Concord from January 1, 1936 to date of this report, December 15, 1936.

During this period the health of the city was good. No important disease was prevalent here. Scarlet fever decreased from the preceeding year, and only three cases of infantile paralysis appeared in spite of the outbreaks of that disease reported from nearby areas. There were no cases of diphtheria and only one typhoid fever, that being an imported infection. Mumps and german measles continued to appear in the schools but no serious cases or deaths were reported.

Continuing the sewer connection program begun in 1935, the owners of all premises within 100 feet of any public sewer but not connected to it were notified that they should connect or show cause why connection should not be required. A drive was made on restaurant toilet facilities and this situation cleaned up as far as the somewhat ambiguous provisions of the Public Laws in this regard seemed to permit. Plumbing in local hospitals was checked over and a number of potential health hazards were eliminated or are in process of elimination at this date. At the suggestion of the Sanitary Officer steps were taken at two local industrial plants to eliminate health hazards from sandblasting and from lead fumes. The Boston & Maine Railroad on the urgent recommendation of the Sanitary Officer drained a small mosquito-breeding pond in the railroad yards near the Margaret Pillsbury Hospital. This was not only a potential health hazard but also was a distressing nuisance to patients in the hospital.

Dramatic problems arose in March when the Merrimack River flooded not only homes in the city but also caused uneasiness about the city water supply. Due to a partial washing out of mains from Long Pond, it was necessary to resort to pumping from the Souck River wells, the well-heads of which were actually submerged. Constant and repeated tests of water from both the high and the low pressure services did not indicate any pollution at any time however. General pasteurization of milk ceased for a short time when the city electric power failed but we were able to arrange for a sufficient pasteurized supply for hospital needs. One family under isolation for communicable disease had to be transferred to higher ground. Upon subsidence of the flood the city health department removed carcasses of animals of all sizes, cleaned up polluted homes, condemned and destroyed polluted foods, emptied barns of wet hay that was spontaneously heating, disinfected flooded wells and carried on an extensive anti-typhoid campaign in which 265 persons were given free injections of typhoid vaccine. It is gratifying to be able to report that with the single exception of some cases of pneumonia in men who worked up to their shoulders in the icy water to salvage property and to save the Sewells Falls Dam, there was no illness attributable to the flood and no increase in illness and deaths in the city.

Beginning July 1, and by virtue of the fact that Concord had a full time medical health officer, (half time with the Board of Health and half with the Union School District), the City Board of Health obtained from the federal government, through the State Board of Health, the sum of $4,100.00 for use in strengthening health work in Concord. This was utilized to employ a full time sanitary inspector and a full time public health nurse. Well trained persons were obtained for each of these positions. For inspector Mr. A. O. Waananen was employed; he was a graduate of the University of New

Hampshire, with the degree of Bachelor of Science, and had specialized in sanitation. On November 15 he resigned to accept a better position. He was replaced by Mr. Elmer P. Wheeler, another graduate of the University of New Hampshire. Mr. Wheeler has the degree of Bachelor of Science. For public health nurse, the appointment was given to Miss Emily H. Foss, R.N. In addition to the usual nursing training, Miss Foss has had a year of special training in public health nursing at Simmons College in Boston. During the school months she will work in the schools, providing full school nursing service to the parochial schools for the first time. She also assists at the venereal disease clinics.

On December 8 the Sanitary Officer, Dr. Travis Pollard Burroughs was appointed Secretary of the State Board of Health and was released by the Concord Board of Aldermen from duty with the city on December 15. Appreciation is expressed for the kindness and consideration shown by the Board of Aldermen in this release from duty on such short notice, and to the other officials and employees of the City of Concord for their courtesy and co-operation throughout the period in which I have been Sanitary Officer.

Respectfully submitted,

TRAVIS P. BURROUGHS,
M.D., C.P.H.

In March the Contoocook and Merrimack Rivers went on a rampage, overflowing their banks and flooding all land and buildings in their basins. Buildings were torn from foundations, some were floated away never to be recovered. Others were filled with the dirty water and debris, some even up on to the second floors. Cellar walls were undermined, floors warped out of shape; inside walls and finish seriously damaged. Cattle and poultry were drowned in their pens. Stacked hay ruined by water and filth. Tillage land all up and down the Intervales were gullied, in some parts to the extent of acres, and other parts were covered with sand and silt, in spots to several feet in depth smothering all growth thereon. Roads and sidewalks in this district required an expense of $35,000. to make passable, this was raised by a flood tax assessed on the entire property of the city, making a rate of $1.10 on each $1,000. valuation.

The Board viewed each piece of property and allowed a percentage loss on the 1935 assessment valuation. This territory covered a distance of nearly 12 linear miles. The damage to taxable property for this year exceeded $160,000. Much of this loss will never be recovered to the city.

We have to report that Bektash Temple Real Estate Association has petitioned the Superior Court for relief

by its Attorneys, Demond, Woodworth, Sulloway & Rogers, from a refusal of this Board on February 8, 1933, to abate a part of the tax, assessed against the Association for 1933-1934-1935-1936. This case is still pending decision; hearings have been held before Bert Cooper as Master, December 12, 13 and 19, 1935. Briefs of Counsel to be submitted later. Counsel for the City, City Solicitor Robert J. Kelliher.

Respectfully submitted,

CLARENCE O. PHILBRICK, *Chairman,*
JOSEPH E. SHEPARD, *Clerk,*
EDWARD F. DONOVAN,

Board of Assessors.

REPORT OF PARK COMMISSIONERS

To the Mayor and the Board of Aldermen:

The Park Department through the buying of modern equipment has been able to carry on a much more extensive program. A new truck was purchased which has been much needed. A new power machine and other new equipment has been added which all goes to speed up the regular work so that more time can be given to new work.

Mr. Frank G. Atkinson, who had been Superintendent of Parks for twenty-five years resigned May 1, 1936. The Commission expressed their gratitude for the long and faithful service so completely enacted.

Mr. Carl L. Sargent was appointed by the Commission to fulfill Mr. Atkinson's place as Superintendent of Parks.

The P. W. A. completed two cement bathing pools, one in Rollins Park and one in White's Park which were finished so late in the season that they were used but little, however they will be ready for the next summer. These are going to prove of great value as a recreational center for Concord's children.

In June the Park Commission accepted a strip of land on the west side of South Main Street which is to be maintained as a parkway which will much improve the approach to the City.

A nursery was started where the Park Department will grow all their own shrubbery which will amount to a considerable saving as time goes by.

REPORT OF THE CITY SOLICITOR

To His Honor Mayor Storrs and the Board of Aldermen:

Your Solicitor reports the following legal actions pending against the City of Concord and/or against its duly appointed officials in carrying out their municipal duties,

Merrimack County Superior Court

1. *Bektash Real Estate Association* vs. *City of Concord*

These are appeals from the refusal of the Board of Assessors to abate taxes alleged to be excessive on property owned by the petitioners. Hearings have been held before Burt R. Cooper, Esquire, as Master for the years 1932-1935 inclusive and the Master's Report has been filed in Court. A motion has been filed by the City Solicitor requesting a hearing on this report.

2. *Frank Truchon* vs. *City of Concord*

This action was entered at the October Term, 1934, for alleged damage to his property, which is claimed to have arisen out of the location and use of the City Dump.

3. *Clement Schettino* vs. *City of Concord*

This action was entered at the October Term, 1934, for injuries alleged to have been sustained while Schettino was working as a City employee. Demond, Woodworth, Sulloway, Piper and Jones, Esquires, have joined with the City Solicitor as associate counsel.

4. *Nicholas Faretra* vs. *James M. Langley et als*

This is a Bill in Equity entered at the March Term, 1935, praying for a reversal of a ruling of the Zoning Board of Adjustment, relative to a parcel of land and building owned by the petitioner on Liberty Street.

5. *Frank Ramsey* vs. *James M. Langley et als*

This is a Bill in Equity entered at the April Term, 1936, praying for a reversal of a ruling of the Zoning Board of Adjustment, relative to the use of the petitioner's property located near Penacook on the Daniel-Webster Highway.

6. *Mary J. Perry* vs. *City of Concord*

This action was entered at the October Term, 1936, for damages to her property located at 296 North State Street, which she alleges arose out of unreasonable and negligent use by the City of said North State Street, near her premises.

An office has been opened by the City Solicitor at the City Hall, in which are all of the City Solicitor records. Office hours daily from 1.30 to 2.30 in the afternoon, at which time your solicitor is ready to take up City business with all interested citizens and with the City officials and employees.

The complete co-operation of all officials and employees of the City, has been extended to me and I sincerely appreciate the aid and assistance of all.

Respectfully submitted,

HENRY P. CALLAHAN,
City Solicitor.
